FARMS**

**COMPLETE  
DISPERSION**

**MONDAY, NOVEMBER 10**

**One of the Greatest Days Ever  
to Build Your Herd  
MONDAY, NOVEMBER 10**

**J. A. COLLIER ESTATE  
COMPLETE  
SHORTHORN DISPERSION SALE  
Fletcher, Oklahoma  
Selling 127 Lots**

**21 Bulls**

**55 Bred Cows and Heifers**

**23 Open Heifers**

**28 Cows with Calves at Foot**

The sale will be held at Hallwood Farms located at the south edge of Fletcher, Oklahoma. Remember . . . Fletcher is only 80 miles southwest of Oklahoma City. The sale will start promptly at 12:00 noon, and the auctioneer is C. D. Swaffar, Tulsa, Oklahoma.

**MERVIN F. AEGERTER, Sale Manager**  
Seward, Nebraska

# General Information

**LOCATION** – The sale will be held at Hallwood Farms located at the south edge of Fletcher, Oklahoma. Fletcher is located 80 miles southwest of Oklahoma City on U.S. Hiway No. 277.

**TIME** – The sale will commence at 12:00 p.m.

**GUARANTEE** – The Collier herd is backed by an enviable reputation gained through honest business practices over the period of a quarter of a century. Pedigrees are correct, and the cattle are healthy. Any known faults will be announced clearly on sale day. Bob Collier knows these cattle and will tell you everything about them. Any females with short or doubtful breeding services will be pregnancy checked. As this is a dispersion sale, no further guarantee will be given.

**ANNOUNCEMENTS** – Announcements from the auction box will take precedence over printed matter in this catalog.

**TERMS** – The terms of the sale are cash.

**HEALTH** – Every animal has passed the blood test for Bang's disease and tuberculosis within thirty days of the date of this sale. All cattle are guaranteed to comply with the health regulations of any state into which they may go. Additional breeding dates will be furnished sale day. Official Bangs vaccination practiced.

We will not be responsible for any accidents that may occur, but will make every effort to provide for the safety and comfort of our guests.

**SALE MANAGER** – Mervin F. Aegerter, Seward, Nebraska.

## FIELDMEN IN ATTENDANCE –

Mervin F. Aegerter, The Shorthorn World  
Kenneth Fulk, American Shorthorn Breeders' Ass'n, Omaha, Nebr.  
Ted Aegerter, American Shorthorn Breeders' Ass'n, Seward, Nebr.  
Arden Aegerter, Stock Yards Station, Kansas City, Mo.  
Fred Ferrel, The Ranchman, Elgin, Oklahoma

**AUCTIONEER** – C. D. Swaffar, 1111 So. Pittsburg, Tulsa, Oklahoma

Those unable to attend may send buying orders to any of the above named Field Representatives or to the Auctioneer. Such orders may be directed to the individuals at their own headquarters, or to the individuals in care of Mervin F. Aegerter, Lawtonian Hotel, Lawton, Oklahoma.

## ABOUT THE MANAGEMENT OF THIS HERD

BOB COLLIER

We have attempted to keep our cow herd working at all times and have therefore tried to maintain them in near ordinary fleshing condition—depending entirely on pasture and good quality roughage with protein supplement when needed. We believe the extra exercise and hardening of muscles that a bull develops when turned to pasture with the cows will give him a longer, more useful breeding life for us. However, we do not hesitate to grain our herd bull through the winter or any time he is losing too much condition. Our principal pur-

pose has been to raise calves. Therefore, a high percentage calf crop has always been of the utmost importance to us. We have been rather ruthless in discarding animals that have given repeated trouble from a breeding or calving standpoint.

During the extremely low price periods of the late '30s and early '40s quite a number of replacement females were purchased. These females have established some of our very best families but some of our best cattle have also continued to come from our earlier families.

Ever since it was known that this herd would be dispersed, Hallwood Seven Eleven has been handled for your best advantage as a prospective purchaser. When he finished his career in the show ring, we turned him to pasture with a group of about 25 heifers, and fed him grain daily to let him down more easily. After servicing a heifer, Seven Eleven was removed from the pasture to a near-by pen and remained overnight. He did not settle all of his heifers. So this summer we decided it would be best to cut down on the number he was to breed. We placed him in a small pasture with only the heifers that had dropped calves by him, and put another young bull, Hallwood Bookmaker, with the heifers not yet settled. We have done this because it is our sincere desire that Seven Eleven get the best home possible and we want his new owner to get the very best service possible from him.

We do not maintain an accredited herd for T.B. and Bangs but have never had a T.B. reactor and have for the past 15 years practiced calfhooed vaccination of our heifer calves after a negative Bangs test.

We regularly vaccinate our calves against Blackleg and Hemoragic Septicemia. As a preventive measure we have vaccinated all animals over six months of age against Leptospirosis both this year and last year. Although we have not found a reactor our veterinarian felt that we would build a very strong immunity by vaccinating our animals in successive years. Our calf crop is an indication of the breeding regularity of our cow herd.

The entire herd has been sprayed during August and September with Co-Ral, the new grub and pest killer. All calves under a year will be vaccinated against shipping fever approximately two to four weeks ahead of the sale.

ROBERT A. COLLIER

Mr. and Mrs. Robert Collier, pictured with Hallwood Sands that sells as Lot 8.

## A Word About the Management and Breeding Plans at Hallwood Farms

Primarily the breeding program over the years has been the selection and purchase of top bulls, the selection of the best heifers for replacements and mating them to the best bull available. However, due to the size of this herd, the scattered location of the various pastures and the management practice of pasture breeding most cows, it has been necessary to use a larger number of bulls than is actually necessary to service the number of cows run. For this reason, it has always been the policy to try several young, promising bulls and to use those found to be satisfactory. We believe the use of our own bulls has also helped to establish uniformity in this herd.

Insofar as practicable, we have made an effort to line-cross, using lines that are known to have nicked well. We have done a certain amount of this type of breeding with our Mercury and Royal Leader strains of cattle. We were just now beginning to accumulate a few line-bred Gambler calves to further carry out this idea, since the Gambler bull has mated well with nearly all of our cows. However, the ruling yardstick has always been selection, and any animal not measuring up has been readily discarded.

In making our matings for line-bred individuals we have attempted to concentrate the good characters by crossing animals that have the same good characteristics. In making a line-cross or an out-cross, we have attempted to mate animals together that would have different good qualities in the hopes that we could produce an animal that carried all of the good qualities of the various strains of our cattle. Our selections have been toward a middle-of-the-road type of animal. We have not gone all out for size but have been very quick to discard those animals that were obviously too small.

BOB COLLIER

**BUYERS FROM A DISTANCE** – Fletcher, Oklahoma, is located on the main line of the Frisco Railroad between St. Louis and Fort Sill near Lawton, Oklahoma. Many of the streamliners stop at Fletcher, and all of them will stop at near-by Lawton. Buyers arriving on the main line of the Rock Island Railroad will be met at Chickasha, Oklahoma, if they will contact either Robert Collier or the sale manager, Merv Aegerter. Consult your nearest ticket agent for other main railroad line and airline service into Oklahoma City and into Lawton.

**PRIVATE PLANES WILL BE MET AT LAWTON.** Also passengers on Continental Airlines landing at Lawton.

**SALE HEADQUARTERS** – The Lawtonian Hotel in Lawton will be sale headquarters, and transportation will be furnished from this hotel to the sale and upon return to Lawton again following the sale. Fletcher is located 80 miles southwest of Oklahoma City, and only 20 miles northeast of Lawton on U.S. No. 277.

**EXCELLENT MOTELS** will also be found at Lawton, Chickasha, Duncan and Anadarko, Oklahoma.

We would like to mention again that all of the cattle owned by the J. A. Collier Estate sell in this sale, as well as those owned by several grandsons. Robert Collier, himself, personally owns 11 brood cows none of which have been purchased during the past five years. His plans do not include the purchase of any of the above cattle owned by the Collier Estate at this time. He is therefore in a position to be of great help to anyone seeking his counsel and assistance in the selection of cattle in this sale.

## THE COVER PICTURE

A family interest in Shorthorns provides a common approach to goals of gracious living. Improved livestock creates an atmosphere of friendliness evident in the picture on the front cover of this number of *The Shorthorn World*.

The photograph on the front cover of this number of *The Shorthorn World* was taken on Hallwood Farms, Fletcher, Okla. No publicized stars of the cinema could have posed more naturally for our photographers than did Mrs. Robert Collier and her father-in-law. We think it is one of the great pictures taken over the years for the magazine. The Shorthorn heifer in the picture is Hallwood Wreath 3rd, a member of the excellent J. A. Collier & Son herd.

Cooperation of members of the Collier family has contributed to the almost fabulous success of Hallwood Farms Shorthorns. The love of improved livestock provides favorable climate, figuratively and sociologically, in which to nurture the ideals of Americanism expressed in this picture.

Mrs. Robert Collier and her father-in-law, J. A. Collier, both of Hallwood Farms, and "Blondie", the Shorthorn heifer registered as Hallwood Wreath 3rd.

*(Reprinted from the May 15, 1953 issue of the Shorthorn World)*

HALLWOOD WREATH 3rd SELLS AS LOT 125 IN THIS SALE. SHE WILL CALVE AGAIN BEFORE SALE DATE, AND TWO DAUGHTERS AND A SON SELL AS SEPARATE LOTS.

## I Hope You Will Be With Us On November 10

Those who have never visited Hallwood Farms have a real treat in store for them on November 10. The uniformity of the Collier cow herd has always been most apparent to me but until I had the opportunity of going over all the pedigrees I did not realize the reason for this. You, too, will find that most of the members of the brood cow herd were bred on this farm, many of them for several generations. The result is a cow herd of remarkable uniformity in color, type and quality.

The cows have been listed by families and I am sure you will find that the breeding and calving record of every one that sells is most outstanding.

In the late '30s and early '40s, J. A. Collier was a familiar figure at all of America's leading sales, and he invariably purchased some of the most outstanding females selling.

In recent years his son Robert Collier, has been actively engaged in the management of the Hallwood herd. I personally feel that buyers at this sale are fortunate in having a man of Bob's ability to honestly counsel and help them in every way possible. At the present time Bob is president of the American Shorthorn Association. His wife, Viva, is a national officer in the Lassie group. Squarely on the shoulders of these two young, capable people have rested the responsibility of the management of the Hallwood herd. Most certainly because of their well carried-out plans, this sale deserves the highest possible recommendation. The Hallwood herd today stands as a monument to the efforts of J. A. Collier. The closing-out will prove a great loss but in turn provide buying opportunities seldom provided.

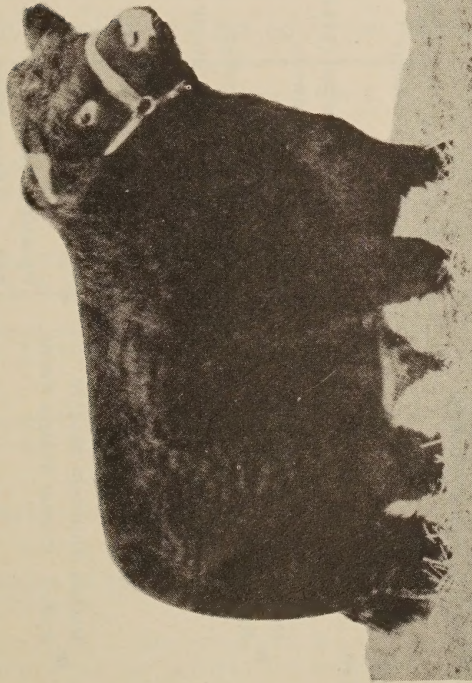

MERV AEGERTER  
of The Shorthorn World

## FOR REFERENCE ONLY

CLEAR CREEK GAMBLER was not a reputation bull. In our search for the right bull we visited most reputation breeders but when we found Gambler there was no question in our mind but that he would be our new herd sire. Although we had to bid much higher than we felt able to bid, we have not been disappointed. We feel we received full value. Likewise, your dollars invested for a bull in this sale will purchase full bull value.

Upon the death of J. A. Collier the full ownership of Clear Creek Gambler was transferred to the remaining original partner, D. L. Coffee.

Clear Creek Gambler, top selling bull at \$6000, in the 1952 International Congress Sale. Sire, Kirkton Gambler. Purchased by D. L. Coffee, Lindsay, Oklahoma, and J. A. Collier, Fletcher, Oklahoma.

# Reference Sire A

HALLWOOD MISSION LEADER -- one of the best Royal Leader-Mercury bulls in use today. We retained this bull for our own use because every commercial man who saw him as a calf tried to buy him. We have not been disappointed. His bull calves are rugged, masculine headed bulls and his heifers are proving good mother cows. Along with heifers by Secret Leader, they have been retained to cross with Hallwood Seven Eleven.

HALLWOOD AIR CONTROL -- This bull was sold in our 1957 sale but was purchased back by us because the buyer was not satisfied with the number of cows settled to him. We have used him only lightly, and have had very satisfactory results. We consider this bull a very top steer sire. His first two bull calves were fitted for steers, and one was Grand Champion over all breeds at the Iowa Park, Texas show, and the other was Reserve Champion Shorthorn for Ft. Cobb F.F.A. at the Oklahoma Junior Livestock Show. He was Reserve Grand Champion bull to Seven Eleven around the mid-west circuit.

HALLWOOD SEVEN ELEVEN -- It is mighty hard to see this bull sell. He is the kind you breed once in a lifetime, and was the strength for the future for this herd of Shorthorns. He has been Grand Champion bull over the mid-west circuit as a senior calf, a senior yearling and as a two-year-old. We have let him down in flesh and turned him on pasture with a group of heifers. For your benefit we have not tried to settle everything on the place to him, only his own small group of first calf heifers. We have not tried to bring him back up in condition for this sale as we consider him more valuable in his present condition. See his calves on sale day, especially the September 3 bull calf out of Bob's cow, Hallwood Lavender 16th.

# MEMORANDUM

[illegible]

PLEASE BRING THIS CATALOG WITH YOU

**NO HERD IS BETTER  
THAN THE MEN  
BEHIND IT**

Robert Collier and his father,  
the late J. A. Collier,  
often discussed future plans  
for the improvement of  
Hallwood Shorthorns.
